In the 13th century, the most powerful – and feared – land along the shores of the Baltic Sea is the pagan Semigallia. It is a rich trading nation, and that has not gone unnoticed in Rome where the Pope's illegitimate son, Max, tells his father that in exchange for some good ships and some very bad men, he will wage a crusade against the pagans and become ruler. The legendary Namejs leads the Semigallians into a series of battles and ensures that he and his people become an enduring symbol of freedom.

Five-year-old Laura was born in one of Joseph Stalin's prison camps in Siberia. When the book opens, she and her parents are on their long journey back to Latvia, a country Laura knows only from the exuberant descriptions that whirled about the Gulag. Upon her arrival, however, she must come to terms with the conflicting images of the life she sees around her and the fairytale Latvia she grew up hearing about and imagining. Based on the author's life, and written in lush language that defies the narrative's many hardships, "Five Fingers" tells the story of a girl who moves between worlds in the hopes of finding a Latvia that she can call home.

To continue receiving our print catalogue, please send your mailing address to info@balticshop.com or to our mailing address in either the US or Latvia.
